

Streamwalk Program

VOLUNTEERS AT WORK

Insert your logo here

Dear _____ Watershed Resident:

The _____ County Soil & Water Conservation District is cooperating with the Lower Hudson Coalition of Conservation Districts is sponsoring a Streamwalk to assess the environmental conditions of streams throughout the Lower Hudson River Watershed. The volunteer “Streamwalk Team” before you is part of that effort. The Streamwalk training was developed by the Westchester County Soil and Water Conservation District, and is being led by the Lower Hudson Coalition of Conservation Districts.

The _____ Watershed is part of the larger Hudson River Watershed and begins in the Town of _____ flowing southward through the Towns of _____ and _____ before entering the Hudson River in the Town of _____ and later empties into the Hudson River Estuary.

The information collected by the “Streamwalk Teams” will be used to identify habitat and stream restoration sites, new public access and trail opportunities, and to catalogue existing conditions to monitor changes. If you are interested in participating in future Streamwalk efforts, please leave you name, address and phone number with the team.

If you have questions, please feel free to ask this team more about their work. For further information, please call the _____ County Soil & Water Conservation District. We can be reached at (____)_____.

If you are unwilling to have this team walk the stream adjacent to your property, the team will respect your wishes.
